Progress

Through the Progress link you can see an overview of your learning progress and your gamification reports. A visit to the Courses tab shows the courses to which you are registered and your completion status. The Timeline tab shows all the actions you have made in the portal (e.g., when you registered or when you completed a course). If you have been awarded Certifications, they will be visible here as well. The same stands for any Badges you may have gained. Clicking on the Infographic button you can access your personal infographic.
